A Winter Concert

December 7, 2023

6:30 PM

Lemon Bay Performing Arts Center

Philip J. Eyrich, Conductor

Jantzen Dauphine, Narrator

A Note from the Director...

Good evening, and welcome to our Winter Concert!

Time certainly flies, doesn't it? It's hard to believe that we are already in December, ready to celebrate the holiday season. The Bands of Lemon Bay have had a great year so far, and we look forward to showing you some of our progress this evening.

We hope you will enjoy our program tonight. We will present holiday favorites, both old and new, which are sure to get you in the spirit of the season. I want to take this opportunity to thank all of the volunteers and behind-the-scenes helpers who have assisted our band in any way this year. If you have not been involved in the past, please consider volunteering in the new year. Many hands make light work!

I would also like to express my gratitude to our amazing LBHS Administrative Team, as well as our CCPS district leadership, for their tireless support of all we do as a band program. Thank you for attending tonight's performance. We hope you enjoy the show and leave feeling inspired by the power of music to bring us together and lift our spirits during this special time of year.

Sincerely,

Philip J. Eyrich

Mr. Philip J. Eyrich

Director of Bands

Lemon Bay High School

This concert is presented in loving memory of

Sherri Wackman

Sherri was a dedicated band parent volunteer and served as our Band Booster treasurer. Sherri passed away unexpectedly on November 26, 2023, and she is already greatly missed. A Celebration of Life event will be held in her honor on Sunday, December 10, 2023, from 1:00-3:00 PM at 2385 Buckskin Drive, Englewood, FL 34223.

Why Music?

Music is a Science...

It is exact, specific, and it demands exact acoustics. A conductor's full score is a chart, a graph which indicates frequencies, intensities, volume changes, melody, and harmony all at once and with the most exact control of time.

Music is Mathematical...

It is rhythmically based on the subdivisions of time into fractions which must be done instantaneously, not worked out on paper.

Music is a Foreign Language...

Most of the terms are in Italian, German, or French; and the notation is certainly not English - but a highly developed kind of shorthand that uses symbols to represent ideas. The semantics of music is the most complete and universal language.

Music is History...

Music usually reflects the environment and times of its creation, often evoking the country and cultural feeling.

Music is Physical Education...

It requires fantastic coordination of fingers, hands, arms, lips, cheeks and facial muscles in addition to extraordinary control of the diaphragm, back, stomach, and chest muscles, which respond instantly to the sound the ear hears and the mind interprets.

Music is all of these things, but most of all:

Music is Art...

It allows a human being to take all these, dry, technically boring (but difficult) techniques and use them to create emotion. That one thing science cannot duplicate: humanism, feeling, emotion.

That is why there is Music.

Not because we expect you to major in music

Not because we expect you to play or sing all your life (although how wonderful would our world be if you did???)

Not so you can relax

Not so you can have fun

But... So you will be human

So you will recognize beauty

So you will be sensitive

So you will be closer to an infinite beyond this world

So you will have something to cling to

So you will have more Love,

Compassion,

Gentleness,

Good

In short – MORE LIFE.

Of what value will it be to make a prosperous living unless you know how to live?
