9 to 5, with music and lyrics by Dolly Parton and book by Patricia Resnick, is based on the seminal 1980 hit movie. Set in the late 1970s, this hilarious story of friendship and revenge in the Rolodex era is outrageous, thought–provoking and even a little romantic.

Pushed to the boiling point, three female coworkers concoct a plan to get even with the sexist, egotistical, lying, hypocritical bigot they call their boss. In a hilarious turn of events, Violet, Judy and Doralee live out their wildest fantasy – giving their boss the boot! While Hart remains "otherwise engaged," the women give their workplace a dream makeover, taking control of the company that had always kept them down. Hey, a girl can scheme, can't she?

The Power of Living Benefits Life Insurance.

Health Insurance Isn't Enough

Medical bills, lost income, and ongoing care due to major illnesses cause over 50% of bankruptcies. 68% of those bankrupted families were covered with health insurance - it didn't save them.

Life Insurance That Works For You

Traditional policies don't offer the protection families need in today's modern world. Upgrade to Living Benefits for support during life's toughest moments.

Is Your Coverage Keeping Up?

Living Benefits give you access to your policy's funds if you experience a severe illness like a heart attack, stroke, or cancer—so you can focus on recovery without added financial stress.

The Most Effective Protection Against Medical Bankruptcy

Facing a terminal, critical, or chronic illness often results in mounting expenses and lost income. When your bills outpace your earnings, debt starts to build quickly.

Living Benefits provide cash when you need it most, covering costs that health insurance doesn't—like your mortgage, car payments, and groceries—so you can focus on recovery without worrying about finances.
