A PRESENTATION BY THE BANDS OF LEMON BAY HS

A Note from the Director...

Welcome to this evening's performance, and thank you for being here! We are thrilled to present to you our first concert of the year, which revolves around the themes of Darkness and Light. These themes are explored both as abstract concepts, such as good and evil, and as physical manifestations, such as day and night.

Tonight, our Symphonic Winds, Jazz Ensemble, and Marching Mantas have worked hard to bring you an unforgettable experience. We hope you will enjoy their performances and appreciate the artistry and dedication that goes into creating this music.

As a band program, we rely heavily on the support of our community. If you enjoy the show tonight, we kindly request that you consider making a financial contribution to our band program. Your generosity will help us continue to provide quality music education to our students and support our booster organization.

Once again, thank you for joining us this evening. We hope you have a fantastic time and enjoy the show!

Sincerely,
Philip Eyrich
Director of Bands
Lemon Bay High School

Saturday, February 3, 2024 - 9:00 AM-2:00 PM

Lemon Bay High School Front Parking Lot

Why Music?

Music is a Science...

It is exact, specific, and it demands exact acoustics. A conductor's full score is a chart, a graph which indicates frequencies, intensities, volume changes, melody, and harmony all at once and with the most exact control of time.

Music is Mathematical...

It is rhythmically based on the subdivisions of time into fractions which must be done instantaneously, not worked out on paper.

Music is a Foreign Language...

Most of the terms are in Italian, German, or French; and the notation is certainly not English - but a highly developed kind of shorthand that uses symbols to represent ideas. The semantics of music is the most complete and universal language.

Music is History...

Music usually reflects the environment and times of its creation, often evoking the country and cultural feeling.

Music is Physical Education...

It requires fantastic coordination of fingers, hands, arms, lips, cheeks and facial muscles in addition to extraordinary control of the diaphragm, back, stomach, and chest muscles, which respond instantly to the sound the ear hears and the mind interprets.

Music is all of these things, but most of all:

Music is Art...

It allows a human being to take all these, dry, technically boring (but difficult) techniques and use them to create emotion. That one thing science cannot duplicate: humanism, feeling, emotion.

That is why there is Music.

Not because we expect you to major in music

Not because we expect you to play or sing all your life (although how wonderful would our world be if you did???)

Not so you can relax

Not so you can have fun

But... So you will be human

So you will recognize beauty

So you will be sensitive

So you will be closer to an infinite beyond this world

So you will have something to cling to

So you will have more Love,

Compassion,

Gentleness,

Good

In short – MORE LIFE.

Of what value will it be to make a prosperous living unless you know how to live?
