Special Thanks

None of these programs are possible without the support our TLE families have for their students. I get to have the most fun doing what I love with kids who totally rock because of you all!

A huge shout out goes to my intern, Mr. Penrod, for all of his help! He has climbed ladders, moved instruments, and done everything I can't do right now. I could not have done this without him!

Thank you to my decorating team of Jennifer Breen, Ebonie Barnes, Veronica Coral, Xiomara Gazabon, and Alex Periera. You ladies are awesome!

Thank you to Jonathan Tirado for joining us on drum set and djembe! I am so excited to watch you and Gabriel live your best lives on stage together!

Thank you to my special people and my family! You all are my favorite humans and I am so lucky to have your support in all that I do.

Lastly, to my students. Thank you for always trusting the process, even when you think my ideas are insane. I am better because of you all and I am lucky to be your teacher.
